

ALTERNATIVE EDUCATION

Layers of Language:
The Greek Layer of Language –
Letter-sound Correspondences and Syllable Patterns

Marcia K. Henry, Ph. D.
Professor Emerita,
San Jose State University

~ Module 13, Session 10 ~
Activity 1

- Identify the patterns that are uniquely Greek.

photosynthesis

chromatic

chlorophyll

physician

psychiatry

rheumatic

pterodactyl

astrophysics

dermatology

mnemonics

rhinoplasty

pneumonia

- Generate a list of other words that contain the unique Greek letter-sound correspondences. These can be shared with the entire class.
